PROFILE SUMMARY

Frontend & UI Developer with 4+ years of experience building responsive, user-focused, and modern web interfaces. Skilled in React.js, JavaScript, and UI development with a strong focus on performance, clean design, and seamless user experience.

SKILLS

Frontend Web Technologies - React.js, JavaScript, HTML5, CSS3, SCSS, jQuery, Bootstrap, Tailwind CSS — skilled in building modern, responsive, and user-centric UI components.
Backend & Database Skills - Core PHP, SQL, MySQL — able to work with database queries, data handling, and basic backend integration.
Tools & Development Platforms - Git, GitHub, Visual Studio Code, Sublime Text, Postman, Chrome DevTools.
UI/UX & Performance Optimization - Responsive web design, cross-browser compatibility, component structuring, API integration, page load optimization, and clean UI implementation.
Problem-Solving & Collaboration - Debugging complex UI issues, optimizing performance, working efficiently in teams, and delivering stable & scalable solutions.

WORK EXPERIENCE

Interactive Bees Pvt Ltd – (Frontend Developer) September 2022 – November 2025
Interactive Bees Pvt. Ltd. is a digital marketing and branding agency offering end-to-end creative, web development, and digital transformation services. The company works with major brands to deliver impactful websites, branding solutions, and digital campaigns. It focuses on building user-centric digital experiences through innovative design and technology. Seamlessly integrated third party Apis related to finance domain.

- Developed responsive, scalable, and visually appealing frontend interfaces using HTML, CSS, SCSS, JavaScript, jQuery, and React.js.
- Collaborated with backend teams to integrate REST APIs, ensuring smooth data flow and seamless functionality across platforms.
- Optimized website performance by improving load speed, cross-browser compatibility, and mobile responsiveness.
- Participated in code reviews, identified UI issues, and implemented consistent debugging and enhancements to improve user experience.

Sabato Exports (UI Developer) | August 2021 – September 2022
Sabato Exports is a garment and fashion export company specializing in high-quality apparel for international markets. The company focuses on modern design, premium manufacturing, and global distribution. Its digital presence supports product showcasing, client engagement, and corporate branding.

- Developed clean and user-friendly frontend interfaces using HTML, CSS, Bootstrap, and JavaScript, ensuring smooth navigation and modern UI layouts.
- Supported senior developers in creating interactive and scalable UI components for web projects.
- Optimized pages for responsive design across mobile, tablet, and desktop viewports.
- Assisted in testing, debugging, and improving UI features to deliver polished and performance-optimized web pages.

PROJECTS

Designed and developed efficient, responsive, and visually appealing UI pages with strong attention to detail, animations, and smooth interactions.
Century Ply – www.centuryply.com
A leading plywood and interior solutions brand showcasing products and categories online. I developed responsive UI pages and improved navigation, ensuring smooth and mobile-friendly user experience.
Intercont Liner – www.intercontliner.com
A global logistics and freight solutions company. I developed professional, responsive layouts highlighting services and improved navigation for international users.
Vinsys – www.vinsys.com
A global training and certification provider. I created responsive course and service pages with clear layouts and integrated dynamic data for a better learning experience.
